

ACID GATOR

Premium Absorbent for Acid Spills

Satisfies OSHA Requirements
for Safer Neutralization and Absorption of Acid Spills

Acid Gator provides a combination of neutralization and highly efficient absorption for safer handling and disposal of Acids up to a 50% concentration in one step.

A Cellulose Absorbent meeting all OSHA requirements

Begins Neutralization and Absorption of most Acids

Absorbs 10 to 12 times its own weight in liquids

Helps to neutralize acids for a quick, easy and safer way to handle many acid spills

Comes in a 20 pound bag for ease of handling and storage

Light Weight - means lower transportation costs

Better Absorption - less material for disposal

Adds BTU's to incineration, with less than 5% ash
