

GATOR BOOMS®

POLYPROPYLENE BOOMS & SOCKS

These hydrocarbon selective Booms and Socks are produced from polypropylene materials. "Oil / Hydrocarbon Only" Booms & Socks are filled with a polypropylene absorbent medium. Booms are 5" x 10' (GS-33) or 8" x 10' (GS-34) and Socks are 4" x 4' (GS-41)

BENEFITS

- High absorbency means less product is required to clean up a spill.
- Less material is hauled to landfill or incinerator.

APPLICATIONS

1. **Paper Mills and other process industries.** Use Booms or Socks around leaking equipment. Gator Booms will contain hydrocarbon spills on water.
2. **Petroleum Distribution Operations.** Use Booms or Socks to contain spills around pumps or for emergency containment during transport delivery.
3. **Spill Response.** Use Booms or Socks to contain spills on roadways or waterways.
4. **Maritime industries.** Use Booms and Socks for fuel and oil spills to prevent contaminants from reaching drains and open waterways.

USE DIRECTIONS

Surround leaking equipment or vessels with Booms or Socks. Always dispose of contaminated materials in accordance with Local, State and Federal guidelines.
