

# GATOR BOOMS®

## POLYPROPYLENE BOOMS & SOCKS

These hydrocarbon selective Booms and Socks are produced from polypropylene materials. "Oil / Hydrocarbon Only" Booms & Socks are filled with a polypropylene absorbent medium. Booms are 5" x 10' (GS-33) or 8" x 10' (GS-34) and Socks are 4" x 4' (GS-41)

### BENEFITS

- High absorbency means less product is required to clean up a spill.
- Less material is hauled to landfill or incinerator.

### APPLICATIONS

1. **Paper Mills and other process industries.** Use Booms or Socks around leaking equipment. Gator Booms will contain hydrocarbon spills on water.
2. **Petroleum Distribution Operations.** Use Booms or Socks to contain spills around pumps or for emergency containment during transport delivery.
3. **Spill Response.** Use Booms or Socks to contain spills on roadways or waterways.
4. **Maritime industries.** Use Booms and Socks for fuel and oil spills to prevent contaminants from reaching drains and open waterways.

### USE DIRECTIONS

Surround leaking equipment or vessels with Booms or Socks. Always dispose of contaminated materials in accordance with Local, State and Federal guidelines.
