OFFICE OF
SOLID WASTE AND EMERGENCY
RESPONSE

Theodore Dickerson
President
Product Services Company, Inc.
Jackson, Mississippi
39209

APR 26 2000

Dear Mr. Dickerson:

We have received and reviewed the information you submitted on the sorbent "Oil Gator". Our review indicates that this product meets the definition of a "sorbent" as specified in Title 40 of the Code of Federal Regulations (CFR), sections 300.5 and 300.915(g) of the National Contingency Plan (NCP). Based on this review, "Oil Gator" is not required to be listed on the NCP Product Schedule.

So that you may be prepared to provide On-Scene Coordinators with a certification as referenced in section 300.915(g)(4) of the NCP, the following statement should be reproduced, dated, and signed on your corporate letterhead:

[SORBENT NAME] is a sorbent material and consists solely of
the materials listed in section 300.915(g)(1) of the NCP.

In this case Oil Gator would be a cellulose product. This letter only applies to Oil Gator not other Gator products. Enclosed for your review is a copy of section 300.915(g) from the NCP. Should you have questions, please contact me at (703) 603-9118.

Sincerely,

A handwritten signature in cursive script that reads "William Nichols".
