

GATOR BOOMS®

POLYPROPYLENE BOOMS

These hydrocarbon selective Booms are produced from polypropylene materials. "Oil / Hydrocarbon Only" Booms are filled with a polypropylene absorbent medium. Booms are 5" x 10' (GS-33) or 8" x 10' (GS-34)

BENEFITS

- High absorbency means less product is required to clean up a spill.
- Less material is hauled to landfill or incinerator.

APPLICATIONS

1. **Paper Mills and other process industries.** Use Booms around leaking equipment. Gator Booms will contain hydrocarbon spills on water.
2. **Petroleum Distribution Operations.** Use Booms to contain spills around pumps or for emergency containment during transport delivery.
3. **Spill Response.** Use Booms to contain spills on roadways or waterways. Gator Booms will contain hydrocarbon spills on water.
4. **Maritime industries.** Use Booms for fuel and oil spills to prevent contaminants from reaching drains and open waterways. Gator Booms will contain hydrocarbon spills on water.

USE DIRECTIONS

Surround leaking equipment or vessels with Booms. Always dispose of contaminated materials in accordance with Local, State and Federal guidelines.
